

INTELLIFORMA

GROUP SM

Intelliforma Group is an SBA-certified Service-Disabled Veteran-Owned Small Business (SDVOSB) delivering AI/ML, Digital Twin, and Data Interoperability solutions engineered for federal mission impact with security, compliance, and knowledge transfer built in from inception, not bolted on.

COMPANY SNAPSHOT

CAGE Code	20DT6	Entity Type	Limited Liability Company
Year Founded	2025	Business Size	Small Business
HQ Location	Falls Church, Virginia	Clearances	SECRET, TS
SAM.gov	Active (exp. 05/08/2027)	Website	intelliformagrp.com
SBA-Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)			

CORE CAPABILITIES

AI/ML Strategy & Implementation Use-case discovery and responsible AI governance (OMB M-24-10, EO 14110); end-to-end ML pipeline design and ATO-ready deployment; model assurance, explainability, and bias detection; DoD/CDAO AI adoption support.	Digital Twin Advisory & Architecture Program design for mission-critical infrastructure, weapons systems, logistics, and facilities; real-time simulation, monitoring, and optimization; IoT/SCADA and enterprise integration across the full lifecycle.
Data Interoperability & Integration Open-standards implementation (FHIR, NIEM, OGC, FAIR, IC-ITE); data-fabric and integration architecture; master data management and metadata governance; legacy integration and API modernization.	Federal Compliance & Cybersecurity FedRAMP, FISMA, and NIST RMF implementation; Zero Trust architecture (CISA ZTMM, OMB M-22-09); CMMC Level 2/3 readiness and remediation; continuous monitoring and ATO advisory.
Program & Acquisition Advisory Market research and acquisition strategy; PWS, SOO, and SOW development; source-selection support, evaluation frameworks, and IGCE development; post-award program management and oversight.	Workforce Enablement & Change Management Organizational-readiness assessment and transformation change management; curriculum and instructor-led training; enduring knowledge-transfer programs; executive coaching for transformation leadership.

DIFFERENTIATORS

Practitioner-Led Delivery	Cleared professionals who have run federal programs under IG and congressional scrutiny including managed portfolios exceeding \$500M across DoD and DHS - never junior analysts on your dime.
Compliance Built In	Security, policy, and governance embedded at inception, reducing rework, cost, and schedule risk at ATO.
Mission-Outcome Focus	Engagements scoped and priced to measurable client outcomes, not hours billed.
Interoperability by Design	Solutions architected to connect across the federal ecosystem, preventing the silos that derail modernization.
Knowledge Transfer as a Deliverable	Training and documentation build your team's capacity, not dependency on ours.
Specialized Depth	Focused expertise in the three disciplines driving the next decade of federal digital transformation.

CONTRACT VEHICLES / PROGRAMS PURSUED

Vehicle / Program	Scope	Status
SBIR / STTR	R&D awards: DoD, DAF/USSF, DLA and other federal agencies	Active
GSA MAS (IT)	Government-wide vehicle for IT services and solutions	Pursuing
CIO-SP4	NIH GWAC; broad civilian and health-IT applicability	Pursuing / Teaming
OASIS+	GSA multi-agency IDIQ for professional services	Pursuing / Teaming
SeaPort-NxG	Navy IDIQ for engineering and program support	Evaluating
Agency BPAs / IDIQs	Agency-specific vehicles aligned to target customers	Targeted

NAICS & PSC CODES

NAICS	Description	PSC	Description
541512	Computer Systems Design Services	D302	IT & Telecom Systems Development
541511	Custom Computer Programming Services	D307	IT & Telecom Systems Analysis
541519	Other Computer Related Services	D316	IT & Telecom Data/Database Management
541690	Scientific & Technical Consulting	R423	Support Policy Review/Development
541715	R&D — Physical, Engineering & Life Sciences	U099	Education/Training, Other
611430	Management Development Training		

TEAMING & PARTNERSHIP

Intelliforma operates in two capacities: as **prime** on SBIR/STTR awards and SDVOSB set-asides, and as a **specialized teammate** strengthening larger teams on multiple-award vehicles. In either role we bring focused technical depth, cleared delivery, and compliance built in and our SDVOSB status helps prime partners meet small-business and SDVOSB subcontracting goals.

As Prime	As a Specialized Teammate
• SBIR/STTR research and prototyping awards • SDVOSB sole-source and set-aside task orders • Pilots and rapid-prototype efforts where deep specialization outperforms broad-scope integration • Full delivery accountability — technical, compliance, and program management	• Differentiated AI/ML, Digital Twin, and data-interoperability depth for your task orders • Cleared personnel and ATO compliance advisory that de-risk delivery • SDVOSB participation that counts toward your small-business subcontracting goals • A niche partner for recompetes and new pursuits needing capability you don't staff in-house
